Letter of Intent

I have received a Bachelor's Degree in Commercial Graphics, and I am currently based in the downtown San Antonio area. I've been designing and developing ads and websites since 2002, and I love what I do.

I have worked on both Mac and PC platforms, and am proficient in Photoshop, In Design, Illustrator, Dreamweaver, Quark, and Word, along with many others. I also have knowledge in web development, including HTML and CSS coding, along with Wordpress.

I have worked professionally as a graphic designer for six years, as well as a freelance artist on the side. Through my experiences, I have learned many "real world" aspects in the advertising business, including design, web development, marketing, and a fast paced, deadline oriented work style. I have learned to balance multiple projects at a time, as well as deliver them by deadlines.

I am always interested in seeking out new opportunities. Please feel free to visit my website or send me an email.

Thank you.
